The History and Theory of Rhetoric Oct 21 2019 The History and Theory of Rhetoric offers discussion of the history of rhetorical studies in the Western tradition, from ancient Greece to contemporary American and European theorists that is easily accessible to students. By tracing the historical progression of rhetoric from the Greek Sophists of the 5th Century B.C. all the way to contemporary studies—such as the rhetoric of science and feminist rhetoric—this comprehensive text helps students understand how persuasive public discourse performs essential social functions and shapes our daily worlds. Students gain conceptual framework for evaluating and practicing persuasive writing and speaking in a wide range of settings and in both written and visual media. Known for its clear writing style and contemporary examples throughout, The History and Theory of Rhetoric emphasizes the relevance of rhetoric to today's students.

Reading Literature and Writing Argument Jan 16 2022 Based on the premise that literature liberates thinking, and argument disciplines it. This anthology features a critical thinking, analytical approach that readers in turn will apply to their own thought and writing processes. It introduces and explains the tools of argument, and presents reading selections centered on four enduring themes-- Individuality and Community, Nature and Place, Family and Identity, and Power and Responsibility. For those interested in literature, composition, and argumentative writing.

A Practical Study of Argument, Enhanced Edition Oct 25 2022 A PRACTICAL STUDY OF ARGUMENT gives you the tools you need to understand informal logic and formulate a good argument. By focusing on real world examples and including helpful study tools such as

exercises with answers, a glossary of common fallacies, chapter summaries, and a book-specific online program (available with the book), *A PRACTICAL STUDY OF ARGUMENT*, Enhanced Seventh Edition provides you with everything you need to master the material with ease. The Elements of Arguments: An Introduction to Critical Thinking and Logic Jul 30 2020 *The Elements of Arguments* introduces such central critical thinking topics as informal fallacies, the difference between validity and truth, basic formal propositional logic, and how to extract arguments from texts. Turetzky aims to prevent common confusions by clearly explaining a number of important distinctions, including propositions vs. propositional attitudes, propositions vs. states of affairs, and logic vs. rhetoric vs. psychology. Exercises are provided throughout, including numerous informal arguments that can be assessed using the skills and strategies presented within the text.

Elements of Argument May 28 2020 *Elements of Argument* was the first text based on the accessible Toulmin model — the model of argument that fits best with the methods and goals of college composition. It combines a thorough argument text on critical thinking, reading, writing, and research with an extensive reader on both current and timeless controversial issues. *Elements of Argument* presents everything students need to analyze, research, and write arguments. The clearest writing and research coverage of any argument textbook has been re-invigorated to make it even more accessible. And it now has an array of provocative new topics — all to help students stake their claim in argument.

Advocacy and Opposition Sep 12 2021 *Advocacy and Opposition: An Introduction to Argumentation* presents a comprehensive and practical approach to argumentation and critical thinking for the beginner who needs to construct and present arguments on questions of fact, value, and policy. *Advocacy and Opposition* offers a theoretical view of the nature of argument in our society, a discussion of arguing as a form of communication, and a focus on how arguments are created using the Toulmin model of argument. By blending traditional and contemporary views on the nature of argument (including multicultural perspectives on the purpose and process of argument, ethics, and values), *Advocacy and Opposition* makes students more aware of both the development of theory and practice, providing a well-rounded approach to their study of argumentation.

Good Reasons Feb 17 2022 For courses in Argument. A practical, visually engaging introduction to argument supported by provocative readings on contemporary issues Nothing you learn in college will prove to be more important than the ability to create an effective argument. That's the philosophy embodied in *Good Reasons: Researching and Writing Effective Arguments*, 7th Edition, an argument rhetoric/reader which avoids complicated schemes and terminology in favor of providing readers with the practical ways of finding "good reasons" to argue for the positions they take. The text uses lively, nontechnical language, an attractive visual design, numerous examples, and fresh, timely readings to engage readers' interest. The revised 7th Edition includes new readings, multimedia coverage, and projects. *Good Reasons: Researching and Writing Effective Arguments*, 7th Edition is also available via Revel(tm), an interactive learning environment that enables students to read, practice, and study in one continuous experience. Dialogues Apr 19 2022 *Dialogues* represents argument not as a battle to be won, but as a process of dialogue and deliberation—the exchange of opinions and ideas—among people with different values and perspectives. Part One contains succinct instruction on analyzing and developing arguments, including critical reading, source documentation, and analyzing visual arguments. Part Two, updated with many new readings addressing current issues, offers a diverse collection of provocative essays from both the popular and scholarly medium. The lucid, lively, and engaging writing addresses students as writers and thinkers, without overwhelming them with unnecessary jargon or theory.

Perspectives on Argument Aug 23 2022 For courses in English. Learn the skill of rational argument. *Perspectives on Argument* teaches you strategies for critical thinking, critical reading, research, and writing that will help you participate in all types of argument. The 9th Edition extends beyond reading, visual and multimodal argument into the timely topic of online argument. Students will encounter argument at home, school and on the job. This book arms you with the tools you need to identify controversial topics, form opinions and reactions to text and pictures, and write persuasive papers that express their viewpoints. The book also follows the premise that not all arguments involve right and wrong. Students will learn skills like finding common ground, consensus, withholding opinions, negotiating, and even changing beliefs when they can no longer make a case for them. *Perspectives on Argument*, 9th Edition is also available via Revel(tm), an interactive learning environment that enables students to read, practice, and study in one continuous experience. The Craft of Research, 2nd edition Jul 18 2019 Since 1995, more than 150,000 students and researchers have turned to *The Craft of Research* for clear and helpful guidance on how to conduct research and report it effectively. Now, master teachers Wayne C. Booth, Gregory G. Colomb, and Joseph M. Williams present a completely revised and updated version of their classic handbook. Like its predecessor, this new edition reflects the way researchers actually work: in a complex circuit of thinking, writing, revising, and rethinking. It shows how each part of this process influences the others and how a successful research report is an orchestrated conversation between a researcher and a reader. Along with many other topics, *The Craft of Research* explains how to build an argument that motivates readers to accept a claim; how to anticipate the reservations of thoughtful yet critical readers and to respond to them appropriately; and how to create introductions and conclusions that answer that most demanding question, "So what?" Celebrated by reviewers for its logic and clarity, this popular book retains its five-part structure. Part 1 provides an orientation to the research process and begins the discussion of what motivates researchers and their readers. Part 2 focuses on finding a topic, planning the project, and locating appropriate sources. This section is brought up to date with new information on the role of the Internet in research, including how to find and evaluate sources, avoid their misuse, and test their reliability. Part 3 explains the art of making an argument and supporting it. The authors have extensively revised this section to present the structure of an argument in clearer and more accessible terms than in the first edition. New distinctions are made among reasons, evidence, and reports of evidence. The concepts of qualifications and rebuttals are recast as acknowledgment and response. Part 4 covers drafting and revising, and offers new information on the visual representation of data. Part 5 concludes the book with an updated discussion of the ethics of research, as well as an expanded bibliography that includes many electronic sources. The new edition retains the accessibility, insights, and directness that have made *The Craft of Research* an indispensable guide for anyone doing research, from students in high school through advanced graduate study to businesspeople and government employees. The authors demonstrate convincingly that researching and reporting skills can be learned and used by all who undertake research projects. New to this edition: Extensive coverage of how to do research on the internet, including how to evaluate and test the reliability of sources New information on the visual representation of data Expanded bibliography with many electronic sources

Logics in Artificial Intelligence Jun 16 2019 This book constitutes the refereed proceedings of the 11th European Conference on Logics in Artificial Intelligence, JELIA 2008, held in Dresden, Germany, Liverpool, in September/October 2008. The 32 revised full papers presented together with 2 invited talks were carefully reviewed and selected from 98 submissions. The papers cover a broad range of topics including belief

revision, description logics, non-monotonic reasoning, multi-agent systems, probabilistic logic, and temporal logic.

The Structure of Argument Aug 11 2021 The Structure of Argument covers critical thinking, reading, writing, and research. Concise but thorough, it includes questions, exercises, writing assignments, and a full semester's worth of readings—everything students need in an affordable, compact format. Presenting Aristotelian and Rogerian as well as Toulmin argument, The Structure of Argument has been totally revised, with more than three-quarters of the readings new (including many multimodal selections available online at no extra charge), new coverage of multimodal argument, expanded treatment of key rhetorical concepts, a fresh new design, and additional support for research. Its emphasis on Toulmin argument makes Structure highly teachable, since the approach fits with the goals of the composition course.

Ten Arguments for Deleting Your Social Media Accounts Right Now Oct 01 2020 AS SEEN IN THE NETFLIX DOCUMENTARY THE SOCIAL DILEMMA A WIRED "ALL-TIME FAVORITE BOOK" A FINANCIAL TIMES BEST BOOK "THE CONSCIENCE OF SILICON VALLEY"- GQ "Profound . . . Lanier shows the tactical value of appealing to the conscience of the individual. In the face of his earnest argument, I felt a piercing shame about my own presence on Facebook. I heeded his plea and deleted my account." - Franklin Foer, The New York Times Book Review "Mixes prophetic wisdom with a simple practicality . . . Essential reading." - The New York Times (Summer Reading Preview) You might have trouble imagining life without your social media accounts, but virtual reality pioneer Jaron Lanier insists that we're better off without them. In Ten Arguments for Deleting Your Social Media Accounts Right Now, Lanier, who participates in no social media, offers powerful and personal reasons for all of us to leave these dangerous online platforms. Lanier's reasons for freeing ourselves from social media's poisonous grip include its tendency to bring out the worst in us, to make politics terrifying, to trick us with illusions of popularity and success, to twist our relationship with the truth, to disconnect us from other people even as we are more "connected" than ever, to rob us of our free will with relentless targeted ads. How can we remain autonomous in a world where we are under continual surveillance and are constantly being prodded by algorithms run by some of the richest corporations in history that have no way of making money other than being paid to manipulate our behavior? How could the benefits of social media possibly outweigh the catastrophic losses to our personal dignity, happiness, and freedom? Lanier remains a tech optimist, so while demonstrating the evil that rules social media business models today, he also envisions a humanistic setting for social networking that can direct us toward a richer and fuller way of living and connecting with our world.

A Practical Study of Argument Sep 24 2022 Now available with CourseMate so students can complete the exercises online, Trudy Govier's A PRACTICAL STUDY OF ARGUMENT, 7E, International Edition gives students an accessible and yet rigorous introduction to sound argumentation.
