Catatan pinggir 3 Feb 25 2020 Buku ini merupakan kumpulan 160 esai pendek Goenawan Mohamad yang pernah dimuat majalah Tempo dari Januari 1986 sampai Februari 1990. Diawali dengan esai berjudul "Ding" (4 Januari 1986) sampai yang terakhir "Asongan" (24 Februari 1990). Esai-esai yang dikenal sebagai Catatan Pinggir itu berbicara beragam hal, bahkan hampir semua hal yang dekat dengan peristiwa di masyarakat dalam kurun waktu empat tahun itu: tentang kecemasan, kebebasan, kekuasaan, kemerdekaan, keserakahan, kebahagiaan, demokrasi. Mengenai topik yang disebut terakhir, William Liddle, dalam Kata Pengantar untuk buku ini, mengatakan kiranya jelas bahwa Goenawan sangat yakin demokrasi sebagai jenis pemerintahan yang terbaik bagi negara kebangsaan Dunia Ketiga seperti Indonesia. Tetapi dia tidak berpretensi seolah-olah demokrasi dengan sendirinya mampu menyelesaikan segala persoalan.... Goenawan Mohamad, kata Liddle, adalah burung langka dalam sangkar intelektual modern Indonesia. Dia menolak tegas pengkotakan Timur-Barat. Dalam sejumlah Catatan Pinggir ini, kata Liddle, dikotomi Timur-Barat beberapa kali ditampik Goenawan.

The Leisure Economy Dec 05 2020 For the past three decades, we have been steadily creating an extreme 'time-crunch economy' that has affected jobs, portfolios, businesses and lives. But the 'time-crunch economy' is turning into 'the leisure economy' and it will mean wrenching adjustments for our lives and institutions. Everyone from consumers, investors, businesses, and policy-makers will need to understand the changes afoot. The Leisure Economy posits profound economic changes in North America due to both the retirement of the baby boomers and the attitudes of ascendant generations X and Y. Looking at trends in demographics, economics and generational change, this book looks at how to stay ahead of the leisure economy and predicts who will be the winners and losers in the seismic shift ahead.

Decent Capitalism Dec 17 2021 The recent crisis, created by finance capitalism, has brought us to the economic abyss. The excessive freedom of international markets has rapidly transformed into international panic, with states struggling to rescue and bail out a globalized financial sector. Reform is promised by our leaders, but in governments dominated by financial interests there is little hope of meaningful change. Decent Capitalism argues for a response that addresses capitalism's systemic tendency towards crisis, a tendency which is completely absent from the mainstream debate. The authors develop a concept of a moderated capitalism that keeps its core strengths intact while reducing its inherent destructive political force in our societies. This book argues that reforming the capitalist system will have to be far more radical than the current political discourse suggests. Decent Capitalism is a concept and a slogan that will inspire political activists, trade unionists and policy makers to get behind a package of reforms that finally allows the majority to master capitalism.

Growth Slowdowns and the Middle-Income Trap Feb 19 2022 The "middle-income trap" is the phenomenon of hitherto rapidly growing economies stagnating at middle-income levels and failing to graduate into the ranks of high-income countries. In this study we examine the middle-income trap as a special case of growth slowdowns, which are identified as large sudden and sustained deviations from the growth path predicted by a basic conditional convergence framework. We then examine their determinants by means of probit regressions, looking into the role of institutions, demography, infrastructure, the macroeconomic environment, output structure and trade structure. Two variants of Bayesian Model Averaging are used as robustness checks. The results—including some that indeed speak to the special status of middle-income countries—are then used to derive policy implications, with a particular focus on Asian economies.

Handbook of Islamic Banking Jan 26 2020 The Handbook of Islamic Banking comprises 25 studies by leading international experts on Islamic banking and finance specially commissioned to analyse the various debates and the current state of play in the field. From its origins thirty years ago, Islamic banking has expanded rapidly to become a distinctive and fast growing segment of the international banking and capital markets. Despite this expansion, Islamic banking still remains poorly understood in many parts of the Muslim world and continues to be a mystery in much of the West. This comprehensive Handbook provides a succinct analysis of the workings of Islamic banking and finance, accessible to a wide range of readers. At the same time, it seeks to bring the current research agenda and the main issues on Islamic banking before a wider audience. Islamic banking offers, as an alternative to conventional interest-based financing methods, a wide variety of financial instruments and investment vehicles based on profit-and-loss sharing arrangements. These are all explored in detail along with other subjects such as governance and risk management, securities and investment, structured financing, accounting and regulation, economic development and globalization. M. Kabir Hassan, Mervyn Lewis and the other contributors have created an authoritative and original reference work, which will contribute to a wider understanding of Islamic banking as well as provoking further discussion and research. It will be invaluable to all scholars, researchers and policymakers with an interest in this subject.

This book, written by leading democracy experts and scholars of Indonesia, presents a sorely needed study of the inner workings of Indonesia...

Managing Newborn Problems Sep 26 2022 Every year throughout the world, about four million babies die before they reach one month old, most during the critical first week of life. Most of these deaths are a result of the poor health and nutritional status of the mother, combined with problems such as tetanus or asphyxia, trauma, low birth weight, or preterm birth. However, many of the conditions which result in perinatal death are preventable or treatable without the need for expensive technology. Against this background, this publication contains guidance on evidence-based standards for high quality care provision during the newborn period, considering the needs of mother and baby. It has been produced to assist countries with limited resources to reduce neonatal mortality. The information is arranged under four main headings: clinical assessment, findings and management; principles of newborn baby care; procedures; record keeping and essential equipment, supplies and drugs.

CARA SIMPEL BERINVESTASI DI PASAR MODAL Aug 13 2021 Berinvestasi di Pasar Modal tidaklah sesulit seperti yang sering disampaikan para ahli keuangan dan pasar modal. Melalui berbagai contoh aktual, penulis menunjukkan bahwa individual investors memiliki keunggulan yang tidak dimiliki oleh para professional investors. Dengan keunggulan yang dimilikinya ini, maka individual investors seharusnya dapat menghasilkan kinerja yang lebih baik dibanding dengan so-called professional investors. Buku ini memang terutama ditujukan untuk individual investors yang ingin merancang dan mengelola portfolionya sendiri. Benang merah dari catatan-catatan yang ada di buku ini, berlandaskan pemahaman bahwa dibalik lembaran saham itu ada kinerja sebuah perusahaan. Oleh karena itu, dalam jangka panjang, satu-satunya faktor yang akan menentukan harga saham sebuah perusahaan hanyalah kinerja perusahaan tersebut. Konstruksi pembentukan harga yang "terpaksa" terus menerus terjadi di pasar setiap saatnya, menjadi magnet bagi lebih dari 80% pelaku pasar, termasuk para professionals, memungkinkan terjadinya disparitas antara PRICE (yang dibayarkan) dan VALUE (yang didapatkan) dari perusahaan yang sahamnya kita beli. Kemewahan waktu yang dimiliki individual investors - yang tidak selalu dimiliki professional investors - memungkinkan mereka untuk memusatkan perhatian kepada satu-satunya faktor yang akan menentukan harga saham perusahaan, yaitu Kinerja Perusahaan. Apa yang terjadi setiap saatnya di pasar tidak akan menjadi perhatian utamanya. Buku ini disusun atas dasar pengalaman penulis melakukan stock-investing selama 30 tahun terakhir, baik di BEI maupun di major stock-exchanges lainnya. Buku dalam bentuk cetak, saat ini hanya bisa dibeli di counter SahamKu di Tokopedia. Ulasan dan testimonial pembaca juga dapat dilihat di counter SahamKu di Tokopedia.

Sitti Nurbaya Jan 18 2022 First published in 1922, the novel "Sitti Nurbaya: A Love Unrealized," by Marah Rusli, retains the poignancy that made it a modern Indonesian classic. In terms of its social impact in what was then the Dutch East Indies, "Sitti Nurbaya" may be compared to "Uncle Tom's Cabin" in the ante-bellum United States. Even to this day, the issues of injustice and indignities suffered by women that this novel raised continue to be debated throughout the country. Rich in description, dense with ironic foreboding and the inexorable workings of fate, Sitti Nurbaya is Samsu and "Sitti Nurbaya"'s ill-fated love story. But in their wishes, the reader might also discern young people's tantalizing dream of what the East Indies society might become, or could become, if only local genius, embodied in a modernizing youth emancipated from stifling traditions, could fuse with European genius in mutual respect and admiration. This too was, of course, a dream never to be realized, and one perhaps which never could have been realized.

The Rainbow Troops Mar 28 2020 Published in Indonesia in 2005, The Rainbow Troops, Andrea Hirata's closely autobiographical debut novel, sold more than five million copies, shattering records. Now it promises to captivate audiences around the globe. Ikal is a student at the poorest village school on the Indonesian island of Belitung, where graduating from sixth grade is considered a remarkable achievement. His school is under constant threat of closure. In fact, Ikal and his friends—a group nicknamed the Rainbow Troops—face threats from every angle: skeptical government officials, greedy corporations hardly distinguishable from the colonialism they've replaced, deepening poverty and crumbling infrastructure, and their own low self-confidence. But the students also have hope, which comes in the form of two extraordinary teachers, and Ikal's education in and out of the classroom is an uplifting one. We root for him and his friends as they defy the island's powerful tin mine officials. We meet his first love, the unseen girl who sells chalk from behind a shop screen, whose pretty hands capture Ikal's heart. We cheer for Lintang, the class's barefoot math genius, as he bests the students of the mining corporation's school in an academic challenge. Above all, we gain an intimate acquaintance with the customs and people of the world's largest Muslim society. This is classic storytelling in the spirit of Khaled Hosseini's The Kite Runner: an engrossing depiction of a milieu we have never encountered before, bursting with charm and verve.

Counseling Addicted Families Sep 02 2020 Although one person's addiction almost inevitably affects his or her family members, a surprising number of treatment models appear to operate under the assumption that an individual's addiction occurs in a vacuum. By not paying sufficient attention to preexisting family dynamics—whether dysfunctional, supportive, or somewhere in between—counselors run the risk of not fully

understanding the roots of an individual's addictions or the obstacles to his recovery; as a result, counselors may undermine their own treatment efforts both by neglecting any underlying family problems and by failing to capitalize upon a family's potential assistance in an intervention with the addicted individual. In *Counseling Addicted Families*, Gerald A. Juhnke and William Bryce Hagedorn address this problem head-on. Recognizing that even those treatment providers who understand the importance of the familial context of addiction are often stymied by the variety of family treatment theories and their often imperfect fit for cases of addiction, Juhnke and Hagedorn provide a truly integrated model for assessment and treatment. Based upon the authors' combined 23 years of experience in clinical and treatment supervision, the *Integrated Family Addictions Model* consists of six progressive treatment tiers which organize the relevant family treatment theories into a graduated and coherent sequence, beginning with the briefest and least costly forms of therapy. If one of the lower tiers allows clients to reach their treatment goals, the patient and therapist need not waste time and resources following the full continuum. If, however, their needs are still unmet, they can progress in a logical fashion to more advanced and intensive forms of therapy. The book is divided into three broad topic areas designed to provide counselors and graduate students with essential information both about addictions and about the practical applications of various treatment theories. Part One discusses the prevalence of addictions, their negative impact upon families, and the primary existing addiction treatment models, including their limitations and benefits. Part Two outlines methods of assessment for individual cases, and Part Three presents the *Integrated Family Addictions Model* in detail. Along the way, the authors deal with specific interventions for families dealing with violence and dual diagnosis. The book concludes with an epilogue on professional training, which includes an overview of the major professional addiction and marriage and family counseling organizations, and the ways in which they might benefit individual practices and practitioners.

Ragam Wajah Pembangunan Ekonomi May 22 2022 Perkembangan perekonomian di Indonesia senantiasa menjadi konten yang menarik sebagai bahan diskusi. Banyak kejutan yang terjadi di dalam dinamika pembangunan kita, apalagi posisi perekonomian dalam pembangunan sangat dinamis dan cenderung saling berkausal dengan bidang-bidang pembangunan yang lainnya. Indonesia dikaruniai beragam potensi sumber daya dalam yang melimpah, mulai dari sumber daya manusia (SDM), sumber daya alam (SDA), luas wilayah, keadaan muka bumi (topografi), hingga heterogenitas budaya dan kultural. Namun seluruh potensi tersebut belum digarap secara optimal sebagai mesin pembangunan. Posisi Indonesia sebagai negara open small economy dalam kancah perekonomian global juga sering kali membuat stabilitas di lingkup internal kita terombang-ambing dengan kondisi eksternal. Kecakapan dan keluwesan pemerintah sebagai stakeholder utama dalam struktur kebijakan publik sangat menarik dinanti karena hal tersebut sedikit banyak akan memengaruhi psikologis kalangan pengusaha dan masyarakat. Secara normatif, muara dari pembangunan ekonomi diharapkan mampu meningkatkan strata kesejahteraan, kebahagiaan, dan kualitas hidup masyarakat Indonesia secara progresif dan proporsional. Oleh karena itu, pihak-pihak yang terlibat perlu didorong keberdayaannya agar tercipta mekanisme pasar ekonomi yang sehat dan berkualitas. Buku ini disusun sebagai media pembelajaran (lesson learned) mengenai beberapa model kebijakan ekonomi di Indonesia, khususnya dalam rentang 5 (lima) tahun terakhir (2015-2019). Referensi mengenai model-model kebijakan dalam beberapa kondisi menjadi ihwal yang sangat penting karena perkembangan ekonomi senantiasa bersifat dinamis. Oleh karena itu, penulis menyajikan ulasan-ulasan ringkas dalam perspektif akademis dan empiris mengenai proyeksi, proses, dan/atau hasil dari setiap kebijakan yang disandingkan dengan beberapa referensi kebijakan serupa yang sudah pernah diterapkan oleh pihak yang bersangkutan, ataupun pihak lainnya yang relevan sebagai media komparasi

Children Learn What They Live Apr 09 2021 Dorothy Law Nolte, a lifelong teacher and lecturer on family dynamics, presents a simple but powerful guide to parenting the old-fashioned way: instilling values through example. Dr. Nolte's inspiration? *Children Learn What They Live*, the celebrated poem she wrote in 1954. Written with psychotherapist Rachel Harris, each of the 19 couplets of the poem is developed into a chapter on jealousy, shame, praise, recognition, honesty, fairness, tolerance, and more. Positive, realistic, filled with a rare common sense, it is a book to help parents find their own parenting wisdom, and to raise children with a surer, steadier, more understanding hand.

The Spirit Level May 30 2020 It is common knowledge that, in rich societies, the poor have worse health and suffer more from almost every social problem. This book explains why inequality is the most serious problem societies face today.
