*Exchange Rate Economics* Aug 05 2020 This book describes and evaluates the literature on exchange rate economics. It provides a wide-ranging survey, with background on the history of international monetary regimes and the institutional characteristics of foreign exchange markets, an overview of the development of conceptual and empirical models of exchange rate behavior, and perspectives on the key issues that policymakers confront in deciding whether, and how, to try to stabilize exchange rates. The treatment of most topics is reasonably compact, with extensive references to the literature for those desiring to pursue individual topics further. The level of exposition is relatively easy to comprehend; the historical and institutional material (part I) and the discussion of policy issues (part III) contain no equations or technical notation, while the chapters on models of exchange rate behavior (part II) are written at a level intelligible to first-year graduate students or advanced undergraduates. The book will enlighten both students and policymakers, and should also serve as a valuable reference for many research economists.

*Too Sensational* Oct 07 2020 Most of the literature on exchange rate regimes has focused on the developed countries. Since the recent crises in emerging markets, however, attention has shifted to the choice of exchange rate regimes for developing countries, especially those that are more integrated into the world capital markets. In *Too Sensational*, W. Max Corden presents a systematic and accessible overview of the choice of exchange rate regimes. Reviewing many types of regimes, he shows how the choice of an exchange rate regime is related to both fiscal policy and trade policy. Building on the theory of optimum currency areas, Corden develops an analytic framework of three approaches (nominal anchor, real targets, and exchange rate stability) and three polar exchange rate regimes (absolutely fixed, pure floating, and fixed but adjustable). He considers all other regimes to be mixtures of two or three of the polar regimes. Beginning with theory and later turning to case studies of countries in Asia, Europe, and Latin America, Corden focuses on how economies react to negative and positive shocks under various exchange rate regimes. He examines in particular the Asian and Latin American currency crises of the 1990s. He concludes that although "too sensational" crises have discredited fixed but adjustable regimes, the extremes of absolutely fixed regimes or pure floating regimes need not be chosen.

**Memoar Achjar Iljas: Dari Tepi Danau Maninjau - Berakit-rakit ke Hulu** Jul 28 2022 Bagi saya, memoar karya senior saya ini, merupakan kodifikasi perjalanan hidup beliau yang sangat berharga, dapat menjadi teladan dan inspirasi bagi seluruh elemen bangsa. Saya sangat menikmati seluruh isi dari buku ini. Bagian demi bagian, subbab demi subbab, bahkan setiap kalimat yang ditorehkan, memiliki makna tersendiri bagi saya. H. Perry Warjiyo, S.E., M.Sc., Ph.D., Gubernur Bank Indonesia Saya percaya bahwa pembaca akan belajar, atau mempelajari kembali, banyak hal dari buku memoar ini. Semoga ini bermanfaat bagi semua, khususnya generasi muda Indonesia, dan semoga menginspirasi lebih banyak lagi dengan keyakinan bahwa mereka dapat naik mencapai posisi yang tinggi dari mana pun mereka memulai. Dato' Abdul Farid bin Alias, President & CEO Maybank Group Sosok Angku Achjar sangat unik, perpaduan antara karakter yang supel, ramah, mudah diajak berdiskusi bahkan kami sesekali berdebat. Namun ia akan tegas dan teguh ketika menyangkut hal yang prinsip baginya, tanpa mengganggu sedikit pun keakraban sebagai kolega. Di sisi lain, ia pun sering melontarkan kelakar-kritis, yang boleh jadi menambah kecocokan kimiawi kami, dan biasanya berkisar di sekitar integritas. Erry Riyana Hardjapamekas, Wakil Ketua KPK (2003-2007) & eks Komisaris Utama Bank BNI Pak Achjar adalah seorang ekonom, central banker, bankir yang mendasari perilaku dan tindakannya atas dasar Islam dan tradisi (Minang). Seorang muslim yang baik, warga negara yang baik adalah beragama, berilmu, taat hukum, dan menjunjung tradisi dalam kehidupannya, selalu diingatkan Pak Achjar. Saya selalu ingat pepatah Minang yang kerap disampaikannya, "Di mana bumi dipijak, di situ langit dijunjung". Dr. Umar Juoro, ekonom senior, Komisaris HSBC Indonesia & eks Komisaris Maybank Indonesia Kehidupan sederhana namun penuh kebahagiaan yang dimulai penulis di kampung halamannya, serta perjalanan pendidikan dan karier yang dilalui penulis menjadi pondasi yang kuat dalam pembentukan karakter penulis yang saya kenal sebagai sosok yang kaya pengetahuan, kaya pengalaman, lurus, santun namun tegas. Taswin Zakaria, Presiden Direktur PT Maybank Indonesia
